Kilimanjaro, Top of Africa

Why Kilimanjaro?!

Kilimanjaro, one of the seven summits

There are a lot of reasons why someone might visit and climb Mount Kilimanjaro. It is the highest mountain in Africa and one of the Seven Summits, the highest mountains of each of seven continents. At 5,895 meters, climbing Mount Kilimanjaro needs preparation for the altitude near 6,000 meters. Besides you need the will power to reach to the top. It has three volcanic cones which made it geographically a remarkable ecosystem. You will see the 5 layers of this ecosystem on the way to the summit. The sceneries and the landscapes would be impressive, stunning and breathtaking.
